

Cr Andrew WINES

WINDSOR LOCAL UPDATE

Windsor is a great place, and I'm proud to look after the area. I've always been committed to upgrading our community's transport, parkland, drainage, and flood mitigation and am delighted to share some local updates.

Cr Andrew Wines
Councillor for Enoggera Ward

Even better parks for Windsor

Having the best possible parks for our area is one of my main objectives as Councillor. To have this brand new park built with bespoke play equipment has made Windsor an even better place for outdoor recreation and family outings. Council will be completing further work to deliver a dog off-leash area over the next year. This is one more example of how the Schinner Council is committed to having the best possible parks for our community.

This project coupled with the Grinstead Park upgrade completed in 2022, new parklands in Keperra and Newmarket, and Council's ongoing work at Victoria Park, all make Enoggera Ward the best place to live in Brisbane.

Making it safer and easier to get to school

I have always been committed to improving our community's transport and I am proud to provide safer access to our local schools.

In 2023-24 I have secured funding to design improvements to the intersection of Harris Street, and Lutwyche Road. Investigations and design will occur later this financial year, and I will advocate for our community to deliver any proposed improvements as soon as possible.

Following a meeting with school representatives, Council conducted investigations and completed works around the school where they had authority to do so:

- Extended the School Zone and relocated signage further south along Lutwyche Rd
- Reviewed carpark entry and queuing from Passenger Loading Zone on Constitution Rd
- Two new No Parking Zones 2pm-4pm School Days on the approach to the carpark and Children's Crossing on Constitution Rd
- School Zone road markings, signage for Harris St
- Council proactive parking patrols in highly visible City Safety vehicles
- Constitution Rd listed for Local Area Traffic Management Scheme, including planning, design, and consultation with directly affected residents to seek support for future traffic calming; and more.

Making it easier and safer for our community to access local schools is part of my ongoing commitment to improve our suburbs and make Enoggera Ward an even better place to live.

Upgraded facilities for Downey Park

Council committed \$400,000 in partnership with Downey Park Netball Association (DPNA) to modernise facilities at their courts in Windsor. I'm proud to support the Premier Women's Sporting facility in Queensland, if not Australia. This hugely successful association provides opportunity for people to participate in sports across all ages and abilities. It was a pleasure to officially cut the ribbon to open DPNA's new hard courts and lighting upgrade.

Eildon Hill Reserve upgrade

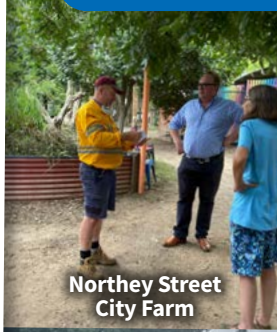

Noble Street flood resilience

Council is reconstructing flood damaged roads to be flood resilient to survive future severe weather events. Noble St had the worst subterranean damage in Enoggera Ward, and has been built back better with improved road resurfacing.

Celebrating 100 years of St Andrews Ladies Hockey Club

Northey Street City Farm

Flood recovery tour of Northey Street with Major General Jake Ellwood

Celebrating 100 years of Windsor Bowls Club

Windsor and Districts Historical Society ANZAC Day

Donating a new marquee to the club

St Mary of the Cross Primary School covered court blessing

Windsor State School - Seussical Junior The Musical

Harris Street New School Zone road markings

NEW AUTOMATED FLOOD WARNING SIGN FOR GREEN TCE

These new automated signs help motorists know when it's not safe to use the roads, and can be turned on remotely when required.
